

elementAl®

Same thin profile and light weight as current industry standard phenolic trays, but without the environmental consequences.

Features

- Made of strong 100% recycled aluminum
- 100% recyclable aluminum
- Soybean based palmrest foam
- Palmrest cover made with eco friendly material
- Built-in, subtle rounded edging to prevent keyboard slippage
- Built-in thumb indentations for ease of tilt and height adjustment
- Durability of aluminum reduces replacement and repair expense
- Fits most keyboard arm mechanisms for retrofit
- Polished finish is standard

Dimensions

- Weight: Approximately 4 lbs
- Tray: 21½" wide X 11⅜" deep X ¼" thick
- Mouse Surface: 8" diameter X ¼" thick

US Patent Pending

Adjustable Mouse Tray
(right or left)
