EQUITY ^NP

NeutralPosture

Classic panel system with centerline modularity
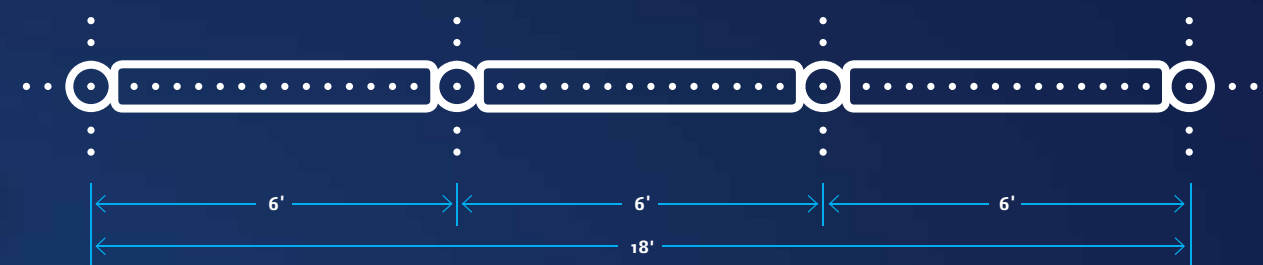

LIKE A SWING RIDE,
ALL THE FUN STARTS
IN THE CENTER

CENTERLINE MODULARITY is at the heart of the Equity[NP] system. Each panel is joined together using a universal, cylindrical, steel post connector. Centerline dimensioning is the incorporation of the connector into the width of the panel.

EQUITY[NP] PANEL SYSTEM

6'	6'	6'

OTHER PANEL SYSTEMS

| 4"	6'	4"	6'	4"	6'	4"

19' 4"

BENEFITS OF CENTERLINE MODULARITY
- Efficient space utilization
- Ease of design, specification and ordering
- Ease of installation and reconfiguration
- Reduced inventory costs
- Improved facility support
- Less downtime

Other panel systems are designed without the panel connector incorporated into the panel width. Therefore, the system requires a specific connector to be added at every "L", "T", "X" intersection of panels. These dedicated connectors are as thick or thicker than the panel making the system "grow" or "creep" as a floor plan is created.

With Equity[NP], regardless of the configuration of panels, the post connector does not "creep" in dimension. As a floor plan is created, Equity[NP] is consistent and predictable. It is easy to plan workstations, aisles, file banks, walls and meeting spaces, because the centerline design stays "on grid" like the other building subsystems.

Drawing a layout with Equity[NP] is as easy as doing a block plan on graph paper because of the predictability of the Equity[NP] connector. No matter how many twists and turns, Equity[NP] always keeps a consistent, true dimension.

open plan

As walls come down, work environments change. More natural light, communication and flexibility are all important in today's workplace. Maximizing space without interfering with workflow is what Equity^{NP} does best.

When designing for open plans, look to Neutral Posture's custom finish program to easily specify any RAL powder coat color, any Wilsonart laminate and an extensive selection of carded and Graded-in panel and seating fabrics.

benching

The world of mobile workers has decreased the need for large office spaces. Maximizing precious real estate is now the norm for most companies and is a core strength of Equity^{NP} center-line modularity.

With efficient use of space, simplified planning and reduced reconfiguration time, Equity^{NP} offers cost-effective solutions that support the touch and go approach to today's work environments.

teaming

Shared office spaces need heads down, focused work areas, walls of storage and common meeting areas. Equity^{NP} panel heights can define each of these spaces.

42-inch panel height provides seated visual access between stations and 49- and 54-inch panels offer limited visual seated privacy. For limited stand-up privacy, 61- and 66-inch panel heights are an ideal solution.

120° planning

Call centers can be designed to engage the user both functionally and visually. Using a cockpit-shaped worksurface allows more comfortable interaction with technology while maintaining a clean, crisp look.

The Equity^{NP} 120° worksurface allows staggered site lines in each benching workstation, encouraging users to feel connected to their co-workers while still maintaining their personal space.

private office

Equity[NP] transitions between open plan and private offices, wall-mounted and free standing, all using the same components. It's a timeless and flexible solution that allows you to maximize your investment.

For the executive office, use Neutral Posture's custom finishes program to create a sophisticated, blended look that's either contemporary or traditional, or elements of both.

Wilsonart® Laminate

Neutral Posture has developed a materials program that allows easy specification of normally "custom-type" selections. By including the entire Wilsonart laminate offering in the price list, expressing yourself through color and texture has never been easier.

The Neutral Posture standard laminate offering includes 20 laminates with matching edge banding plus 9 additional solid color edge band options. The entire Wilsonart line has been grouped into three pricing tiers - L1 standard, L2 premium and L3 virtual library - for easy specification. There is no need to call for special pricing since all Wilsonart laminates are included in the Equity^{NP} price list.

RAL Color System

Equity^{NP} offers 9 standard powder coat colors that complement today's lighter neutrals. In addition to our standard offering, Neutral Posture believes that specifying powder coated steel in a unique RAL color is an incredible way to customize your office environment and make a design statement.

No need to wait on special pricing, we've made it easy to specify. The Equity^{NP} price list has calculated pricing for all 213 RAL powder coat colors. Now adding custom colors to your workspace can be more than just fabrics!

Carded, Graded-in & COM Fabrics

Our well-considered collection of 28 carded fabrics allows easy specification for diverse market segments, all in the first 2 price grades. This collection includes clean, fresh textures and patterns as well as vibrant pops of color.

If you wish to select fabric from an alternative source, we have Graded-in programs with Carnegie, Designtex, Guilford of Maine, Knoll, Luna, Maharam, Mayer, Momentum, Stinson and Victor. We are also happy to work with any COM fabrics that have been UL approved and flammability tested.

equity^{NP}

With a focus on space efficiency, ease of design and ease of reconfiguration, Equity^{NP} offers a complete range of workplace solutions that address the needs of value conscious customers.

Having a universal connector means there is no need to inventory dedicated connector hardware or trim kits. The Equity^{NP} post is designed to fit any panel connection need, including variable angles.
Neutral Posture continues its commitment to long-term ownership with the Equity^{NP} panel system, which features non-obsolescence, user comfort and a lifetime warranty.

## Guide to materials selection per spread

p 3-4 / OPEN OFFICE

1 Powder Coat: NP Platinum
2 Powder Coat: RAL 5024 Pastel Blue
3 Laminate: Wilsonart 1570 White
4 Fabric Gr: E/6 Maharam Disperse 466017-007 Cornflower

p 5-6 / BENCHING

1 Powder Coat: NP Jet Black 204
2 Powder Coat: RAL 7044 Silk Grey
3 Laminate: Wilsonart Asian Night 7949
4 Fabric Gr: G/7 Carnegie Alex 101210-812
5 Fabric Gr: F Carnegie Kaleidoscope 6253-8

p 7-8 / TEAMING

1 Powder Coat: NP Designer Beige 202
2 Powder Coat: RAL 2002 Vermilion
3 Powder Coat: NP Cream 201
4 Laminate: NP Soft Gold Mesh SP-SGM
5 Fabric Gr: E/5 LoomSource Murano-Tangelo
6 Fabric Gr: C Momentum Hue-Paprika

p 9-10 / 120° PLANNING

1 Powder Coat: RAL 7030 Stone Grey
2 Laminate: NP Linen SS-LN
3 Fabric Gr: B/2 Momentum Origin-Eureka
4 Fabric Gr: D/4 Momentum Tetra-Landmark
5 Fabric Gr: E/5 LoomSource Swivel-Spotlight

p 11-12 / PRIVATE OFFICE

1 Powder Coat: RAL 7037 Dusty Grey
2 Laminate: NP Linen SS-LN
3 Laminate: NP Mangalore Mango SW-MGM
4 Fabric Gr: E Momentum Elevate-Ecstatic
5 Fabric Gr: 7 Maharam Divina by Kvadrat 460730-106
6 Fabric Gr: 7 Maharam Divina by Kvadrat 460730-224
7 Fabric Gr: E/5 Carnegie Chanel 5304-4
