

NeutralPosture

facet™

Facet's simple design allows maximum versatility within any environment.

Specify with or without arms; plastic or upholstered backs and settle into thick, padded upholstered seats with a gentle waterfall edge for lasting comfort.

facet

Comfortable guest seating is needed in every work environment. Neutral Posture presents Facet – the classic, multi-purpose chair for office, lobby, healthcare and training environments. Upholstered, curved backs and seats allow comfort during extended meetings.

The molded, black plastic back design integrates a unique perforated pattern ideal for break rooms and high traffic environments. Casters or glides allow use on any floor surface and the wall-saver frame detail prevents marring surrounding walls. Storage is easy when you can stack upholstered back chairs 5-high and molded back chairs 6-high.

FEATURES

- Standard black frame
- Additional 9 frame colors available
- Upholstered back style stacks 5-high
- Molded plastic back style stacks 6-high
- Available with glides or casters
- Integrated wall-saver leg design
- Upholstery selections include carded, Graded-in and COM options
