

Neutral Posture, Inc. is committed to the health and safety of our employees, community, and environment. Therefore, we strive to develop, manufacture, transport, and market our products in a safe and responsible manner. We will:

- Minimize the use of hazardous chemicals in the manufacture of our products and in the creation of hazardous waste as a result of product manufacturing.
- Operate all facilities in accordance with all applicable laws and regulations.
- Provide employees with proper chemical management training to include the potential hazards of using specific chemicals and in chemical spills.
- Maintain Material Safety Data Sheets (MSDS) for all chemicals used in our facilities.
- Assure that public health and the environment are protected from unreasonable risk resulting from exposure to chemicals through the application of appropriate risk management measures.
